

Your comfort your way

HOT WATER COMFORT, JUST THE WAY YOU LIKE IT.

Ariston Group is a global leader in sustainable thermal comfort that offers a unique, extensive range of solutions for hot water, space heating and air treatment, as well as components and burners. Listed on Euronext Milan since November 2021, in 2023 the Group reported almost 3.1-billion-euro revenue, with over 10,000 employees, direct presence in 40 countries in 5 continents, 29 production sites and 29 research and development centers.

The Group demonstrates its commitment to sustainability through the development of renewable and high efficiency solutions, such as heat pumps, water heating heat pumps, hybrids, domestic ventilation, air handling and solar thermal systems. The Group also stands out for its continuous investment in technological innovation, digitalization, and advanced connectivity systems.

Operating under prominent global strategic brands such as Ariston, Elco, and Wolf, as well as renowned brands like Calorex, NTI, HTP, Chaffoteaux, Atag, Brink, Chromagen, Racold, Thermowatt and Ecoflam in the components and burners sector, the Group solidifies its presence across diverse markets.

Your comfort your way

Racold is one of the most trusted brands of India (as awarded by Marksmen Daily) 2024 and one of India's largest providers of water heating solutions, leading the industry for over 60 years.

A fully owned subsidiary of the Ariston Group – Italy the world leaders in water and environmental heating solutions, Racold brings international heritage and path-breaking technologies to India. Enhancing not only the aesthetics and performance, but the quality, safety, efficiency, and durability of the products as well.

Being the only brand in the water heating category that has won the prestigious BEE award an astounding 10 times, Racold has set the standard for energy efficiency within the category.

Racold is the only brand in the category to be selected as a Superbrand in 2019, 2021 and 2023. Our expertise is due to the unwavering commitment of our workforce to keep reimagining water heating as per your needs. So, for a quality water heating experience, look no further because the hot water experts are here.

HOT WATER COMFORT, JUST THE WAY YOU LIKE IT.

Born from the house of Ariston, the global leaders in thermic comfort and energy efficient heating solutions. Racold draws from a worldwide heritage making us the world's preferred partner in delivering the most energy efficient and renewable heating solutions.

Delivering breakthrough innovation, quality water heating solutions, and complete customer satisfaction for over 60 years.

Awarded 10 times by the Bureau of Energy Efficiency from 2010 - 2020, we place energy efficiency at the heart of our sustainable growth strategy and are deeply committed to energy conservation.

Safety Foremost

Racold Water Heaters have multiple measures of safety against high temperature and pressure. Our water heaters have a range of features that ensure thermal stability and safety for children and adults alike.

HOT WATER COMFORT, JUST THE WAY YOU LIKE IT.

STAY ASSURED FOR 7 YEARS

Our 7-Year warranty is a special commitment to provide only the highest standard in water heating to you. We want you to be assured and have complete peace of mind when you choose Racold.

Racold is the only brand in the water heating category to be selected as a Superbrand for 2019, 2021 & 2023. It's a testimony to our continuous efforts and deep commitment to creating products that resonate with our customers.

**Always At
Your Service**

Our network of more than 1000 service technicians and over 400 service centers across the country are always at your service for any assistance. With our 24X7 WhatsApp Chatbot services and Customer Care services, it's very easy to reach out to us.

OUR BEST-IN-CLASS INNOVATIONS

VOICE CONTROL

Connect your water heater to Alexa or Google Assistant and control it using voice commands. Simply say "Alexa, turn on the geyser".

AUTO DIAGNOSIS

The microprocessor in the water heater continuously monitors and cuts off power in case of any malfunction, protecting you from any shocks or mishaps.

DIGITAL TOUCH CONTROL

Experience precise water temperature as per your need with the help of easy-to-control digital touch panel.

AUTO POWER OFF

Schedule your water heater to turn off automatically at a pre-set time for added convenience and energy saving.

ADVANCED TITANIUM

Made from 100% titanium, the revolutionary heating element delivers unmatched performance, anti-corrosion strength, and lasting durability. Enjoy peace of mind with an exclusive 7-year warranty on the heating element.

SILVER ION TECHNOLOGY

The advanced technology effectively reduces bacterial growth, ensuring safe and healthy hot water.

OUR BEST-IN-CLASS INNOVATIONS

TITANIUM PLUS TECHNOLOGY

The titanium enamel coating in the tank prevents corrosion by handling even the toughest water conditions, providing reliable and healthy water for years to come.

QUICK HEATING

Elevate your showers with Quick Heating! The powerful 2.5kW heating element delivers an experience of 3kW output, ensuring faster heating with energy savings.

CHILDREN CARE MODE

The children care function maintains and regulates water temperature to ensure safety against skin burn for seamless use, even for children.

CONSISTENT WARMTH#

No fluctuation in temperature for a seamless bathing experience.

MULTI-POINT USAGE#

Suitable for simultaneous use in multiple bathrooms and kitchens.

INTELLIGENT CONTROLLER

Easily set the temperature and schedule shower timings with the intelligent controller.

HEAT PUMP

HEAT PUMP DOMESTIC RETHINK SUSTAINABILITY

A sustainable water heating solution with quick heating that saves upto 70%* power compared to conventional water heaters. It only uses electricity to transfer heat from one place to another and not to generate heat thereby saving energy. This sustainable water heater is a one-time investment for a lifetime of saving.

Available in White

 70%* POWER SAVING A sustainable innovation saves upto 70%* energy by using electricity to transfer heat from one place to another and not to generate heat.	 QUICK HEATING With this option, the heat pump water heater will work on both Heat Pump and Heating Element mode, giving you instant hot water.	 HIGH EFFICIENCY COMPRESSOR This heat pump water heater ensures faster heat exchange, more hot water and increased savings.
	 INTELLIGENT CONTROLLER Easily set the temperature and schedule shower timings with the intelligent controller.	 TITANIUM PLUS TECHNOLOGY The titanium enamel coating in the tank prevents corrosion by handling even the toughest water conditions, providing reliable and healthy water for years to come.

SOLAR

OMEGA MAX 8

RETHINK SUSTAINABILITY

This sustainable yet stylish water heater ensures renewable and dependable performance. Its state-of-the-art features include MAX 8, which ensures a high pressure withstanding capacity making this solar water heater not only energy efficient, but suitable for pressurised applications as well.

Available in

 MAX 8 PRESSURE High pressure withstanding capacity (up to 8 bar) makes this solar water geyser suitable for pressurized applications.	 DURONOX FOR HARD WATER Prevents tank corrosion and leakage with its specially treated high-grade stainless steel tank that can withstand hard water.	 MAGNESIUM ANODE The water heater comes with an anode that prevents corrosion of the inner tank and thus extends its life.
	 RUST PROOF BODY A rust proof body acts against corrosion ensuring a longer life of the product and increasing aesthetics.	 MULTIFUNCTION SAFETY VALVE With 4 in 1 protection against malfunction, the Multi-function safety valve ensures you have the most secure bathing experience.
